DEPARTMENT OF PUBLIC UTILITIES

NOTICE OF FILING AND PUBLIC HEARINGS

D.P.U. 24-145

November 4, 2024

Petition of NSTAR Gas Company, d/b/a Eversource Energy, pursuant to G.L. c. 25, § 21, for approval by the Department of Public Utilities of its Three-Year Energy Efficiency Plan for 2025 through 2027.

On October 31, 2024, NSTAR Gas Company, d/b/a Eversource Energy (“Company”), filed a petition with the Department of Public Utilities (“Department”) seeking approval of its Three-Year Energy Efficiency Plan for 2025 through 2027 (“Three-Year Plan”). The proposed Three-Year Plan also incorporates the Company’s Residential Conservation Service filing pursuant to G.L. c. 164, App. § 2-7(h). The Department docketed this matter as D.P.U. 24-145.

Pursuant to G.L. c. 25, § 21, all Massachusetts electric and gas distribution companies, and municipal aggregators with certified efficiency plans (together, “Program Administrators”), are required to develop, in consultation with the Energy Efficiency Advisory Council (“Council”), plans that provide for the acquisition of all available energy efficiency and demand reduction resources that are cost effective or less expensive than supply. In addition, the Three-Year Plans must achieve the greenhouse gas emissions reduction goals set by the Secretary of Energy and Environmental Affairs.

Statewide, the Program Administrators together propose to invest approximately \$5 billion in energy efficiency and decarbonization efforts over the Three-Year Plan term that they state will deliver \$13 billion in total benefits to Massachusetts customers. The Company’s proposed Three-Year Plan includes energy efficiency programs for residential, low-income, and commercial and industrial (“C&I”) customers.

The Company’s proposed total budget for the 2025-2027 Three-Year Plan Term is \$417,646,466 (i.e., \$131,142,620 in 2025, \$138,344,439 in 2026, and \$148,159,407 in 2027). If the Company’s Three-Year Plan is approved as proposed, the Company states that customers could experience the following bill impacts:

- Residential heating (R-3) customers using 126 therms of gas per month during the peak period could experience a peak monthly bill increase of \$37.85 (or 14.4 percent) in 2025; a peak monthly bill decrease of \$16.08 (or 5.4 percent) in 2026; and a peak monthly bill increase of \$3.54 (or 1.2 percent) in 2027.

- Residential low-income heating (R-4) customers using 123 therms of gas per month during the peak period could experience a peak monthly bill increase of \$27.60 (or 14.4 percent) in 2025; a peak monthly bill decrease of \$11.72 (or 5.4 percent) in 2026; and a peak monthly bill increase of \$2.58 (or 1.2 percent) in 2027.
- Bill impacts for C&I customers will vary. These customers should contact the Company as indicated below for specific bill impact information.

The Department will conduct the following public hearings to receive comments on the Company's petition, as follows:
